High Performance Brake Pads for Road and Track Vehicles

Our many years of motorsports experience has taught us that stopping power is just as critical to performance as engine power. With that in mind, Cosworth has developed two lines of performance brake pads for genuine fast road car and track performance enthusiasts - StreetMaster and TrackMaster.

Why Choose Cosworth Brake Pads?

- Superior bite from cold
- Exceptional stopping performance
- Silent running technology
- Fade resistant
- Consistent & predictable braking patterns

STREETMASTER HIGH PERFORMANCE BRAKE PADS

For fast road use - ECE R90 approved and road legal

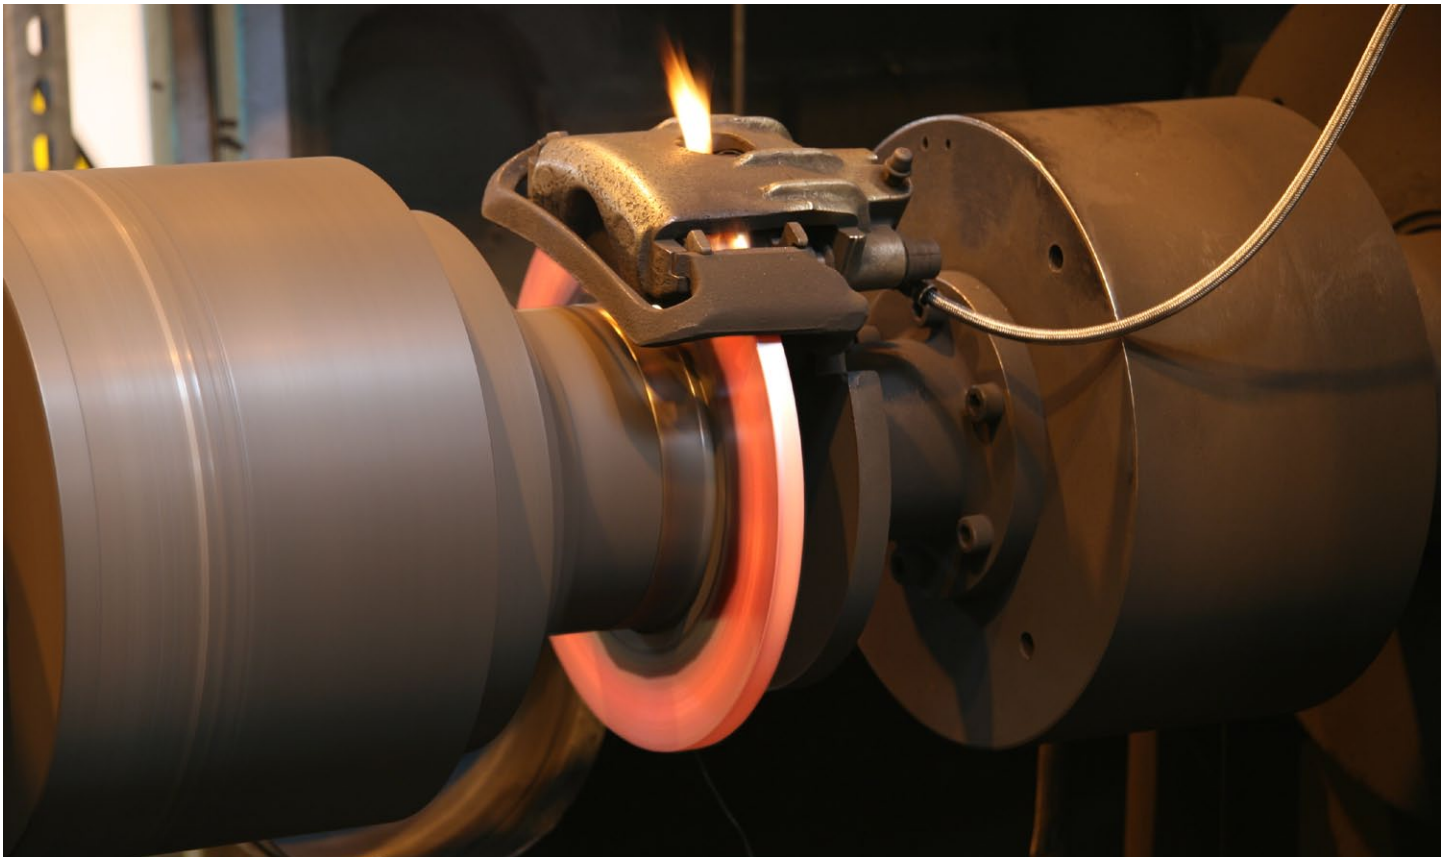

TRACKMASTER HIGH PERFORMANCE BRAKE PADS

For track day use - Exceptional and predictable stopping power

Medium-hard sports pad suitable for heavy duty/fast road -road legal	Track day driving only
Superior bite - 0.5 μ friction coefficient - virtually from first pedal	Extremely high friction level 0.7 μ friction coefficient
Strong brake effect up to 650°C	Strong brake effect through 800°C
Chamfered edge - avoid lifting	"Vee" line expansion groove technology - superb debris clearance
Fitted with premium quality shim hardware - silent braking	Fitted with premium quality shim hardware - silent braking
Durability factor 6.5 with rotor minimal rotor abrasion	Durability Factor 9.5 with minimal rotor abrasion
Produces consistent, predictable braking performance	Super fast "bed-in" typically under 2 laps. Stable, predictable braking and heat cycles exceptionally well
ECE R90 approval	Can be safely used on highways except in Europe where ECE R 90 approvals are required

Dyno testing a Cosworth brake pad

Cosworth brake pads undergoing the heat searing process
